MySQL. SQLite.
FireBase. MangoDB

Language

English
Sinhala

Profile

Final year Software Engineering student at Cardiff Metropolitan University with strong skills in full-stack and mobile app development. Recognized for problem-solving ability, teamwork, and a passion for learning new technologies. Eager to contribute to a professional development team and gain hands-on industry experience through an internship opportunity.

Projects

LuxeVista Hotel App

• Designed and developed a full-featured hotel management mobile application with Firebase backend integration.

• Focused on UI/UX design, booking functionality, and real-time data handling.

Paddy Field. Management System

• Designed and implemented a smart agricultural management system using Python (Scikit-learn), PHP, and SQLite, integrating data analytics and machine learning to predict yield, track weather, and automate paddy field monitoring for efficient farming.

Gym Management System

• Created a system to manage memberships, schedules, and payments efficiently.

GadgetHub

• Developed a C# (.NET 8) web solution that compares quotations from multiple distributors and automatically selects the best-priced option, ensuring efficient order management and optimized backend performance.
